From practical experience it has been found that the records of prisoners undergoing treatment in a Mental Hospital|Leper Asylum|T.B. Hospital for prolonged periods, if maintained by the Hospital|Asylum will not be kept up to date and the respective Superintendents of the Asylum|Hospital may not also be in the

position to work-out the date of release of prisoners after giving appropriate remission. To avoid this the records of such prisoners should be kept and maintained in the Prison itself and the date of release intimated to the Superintendent of the concerned Asylum Hospital sufficiently in advance, in order to enable the latter to treat the prisoner as released from custody and if his further retention in the Asylum Hospital is necessary for the complete recovery from the disease, he can be treated as a civil patient. Please see G. O. MS. No. 80/79 Home (B) dated 2-6-1979. This will ensure the correct date of release of the prisoner from custody.
